## Операционный FAQ

Короткие ответы перед отправкой инструкций.

### Какой счёт использовать для CNY?

Для облака, GPU и IT-оборудования WET SOLUTIONS — Banking Circle / Airwallex CNH SWIFT. Для собственных property fee WEST EAST — Equals Money international CNY. Другие счета не выдавать как CNY без новых подтверждённых инструкций.

#### **CSTRDR или CGODDR?**

CSTRDR — реальные cloud / IT / rental / security services. CGODDR — реальная поставка IT-оборудования по отдельному sales contract.

#### **Можно смешать товары и услуги?**

Нет. Поставка оборудования и аренда / облачные услуги идут отдельными инвойсами, договорами и платежами.

#### **Нужен ли invoice?**

Да. Номер invoice обязателен в назначении; сумма, валюта, получатель и описание должны совпадать с пакетом документов.

#### **Это local mainland CNY?**

Нет. Подтверждённые CNY-рельсы — международные / offshore CNH. Это не mainland wallet и не подтверждённый локальный НК FPS/ACH CNY.

#### **Когда выдаются полные instructions?**

После проверки валюты, категории операции и инвойса. Перед каждым платежом доступность и реквизиты подтверждаются повторно.

#### **Что нельзя писать?**

Не писать crypto / USDT, loan, donation, personal, transit, escrow или название товара/услуги, которого нет в реальных договоре и инвойсе.

**Конфиденциально.** Документ доступен только по прямой ссылке. Не является публичной офертой. Доступность счетов и реквизиты повторно подтверждаются перед платежом.

## Operational FAQ

Short answers before issuing instructions.

### Which account should receive CNY?

For WET SOLUTIONS cloud, GPU and IT hardware: Banking Circle / Airwallex CNH SWIFT. For WEST EAST's own property fees: Equals Money international CNY. Do not issue other accounts as CNY receive details without new confirmed instructions.

### CSTRDR or CGODDR?

CSTRDR covers actual cloud / IT / rental / security services. CGODDR covers an actual IT hardware supply under a separate sales contract.

### Can goods and services be mixed?

No. Hardware supply and rental / cloud services require separate invoices, contracts and payments.

### Is an invoice required?

Yes. The invoice number is mandatory in the purpose; amount, currency, beneficiary and description must match the document pack.

### Is this local Mainland CNY?

No. The confirmed CNY rails are international / offshore CNH. They are not a mainland wallet or confirmed local HK FPS/ACH CNY.

### When are full instructions issued?

After checking currency, transaction category and invoice. Availability and details are reconfirmed before every payment.

#### What must not be written?

Do not write crypto / USDT, loan, donation, personal, transit, escrow, or a product/service not supported by the actual contract and invoice.

**Confidential.** Available by direct link only. Not a public offer. Account availability and details are reconfirmed before payment.
